AARC Center Update

Prepare to embark on a thrilling journey with us as we introduce the future of law enforcement training—the AARC Training Center! At the heart of our vision lies a building designed for versatility and excellence. Picture this: a space where officers don't just learn, but immerse themselves in the most intense, true-to-life scenarios imaginable. Spanning an impressive 10,000 square feet, our center will be a beacon of readiness, equipped to tackle every challenge head-on. From active shooter responses to navigating complex building searches, confronting domestic violence situations, and dissecting crime scenes—our facility will be the ultimate proving ground for our heroes. Step inside, and you'll find yourself in a world of innovation and sophistication. Every inch of our training space will be meticulously designed to replicate the sights and sounds of real-life situations, ensuring our students are fully prepared for anything that comes their way. But that's just the beginning. Our structure will boast state-of-the-art features, including simunition and airsoft capabilities, providing a safe yet immersive training environment. Outside, three distinct scenarios will await, offering a glimpse into the chaos of the streets. Inside, a fully modular wall system will offer endless possibilities, allowing our instructors to recreate the layout of any structure with ease. For those seeking a bird's-eye view, our catwalk system and advanced video technology will provide unique vantage points, ensuring every angle is covered. Our goal? Nothing short of excellence. We're dedicated to providing a training space that's not only state-of-the-art but also flexible and adaptive to the evolving demands of law enforcement. Join us as we embark on this thrilling new chapter together. Together, we'll redefine what it means to be prepared, to be vigilant, and above all, to be heroes.

Architecture

We are proud to announce that we have selected REES Architecture Firm to lead the design of our state-of-the-art facility. REES Architecture Firm's reputation for innovation, expertise, and dedication to excellence made them the clear choice for this monumental project. Their commitment to creating spaces that inspire and empower aligns perfectly with our vision for the AARC Center. With this pivotal decision made, we now eagerly anticipate entering the design phase of the project. This phase will be a collaborative effort between our organization and REES Architecture Firm, where we'll work closely together to bring our vision for the AARC Center to life. We're excited to embark on this next chapter of our journey and look forward to sharing updates with you every step of the way. Together, we're building more than just a facility—we're creating a hub of learning, innovation, and community empowerment. Stay tuned for more exciting developments!

Trent Pettigrew

Please Welcome Our New Academy Coordinator

Trent Pettigrew comes to CLEET from the Canadian Valley Technology Center as the Director of Safety and Security. He was tasked with creating and developing a "BPOC" Basic Peace Officer Certification Academy for Canadian Valley. They started with nothing but a classroom and were given a budget. Trent began the first BPOC academy in January of 2023, emphasizing Discipline and Structure, and graduated some outstanding Cadets. The academy still operates on the same framework to this day. Trent served 29 years as a State Trooper, retiring as a Captain/Troop Commander. He started his career in Troop K Stillwater before being assigned to the Special Operations Criminal Interdiction Unit. He spent most of his career as a Criminal Interdiction Trooper and K-9 handler with my K-9 Rocky. He was the Criminal Interdictor of the Year twice and the Criminal Interdiction Team of the Year three times. He also taught Criminal Interdiction techniques around the United States, teaching for the DEA and DIAP. Trent also taught classes in Search and Seizure, vehicle Compartments, K-9 use, Courtroom Testimony, Body Language, and Statement Analysis. Trent is an expert in body language and statement analysis in Oklahoma. He also wrote a book on lie detection and statement analysis basics. As a Trooper, he served as an OHP academy TAC Officer in several academies and taught Criminal Patrol Techniques in virtually every academy since 1995. He also teaches firearms and attended the Gracie Academy in 1995. Trent was promoted to Lieutenant, where he was the night shift Lieutenant for the metro, Troop A. A few years later, he was promoted to Captain/Troop Commander over Troop A, where he was the youngest Commander ever of Troop A and one of the longest servings. In addition to Troop A, he was the Commander of the Communications Division. He retired as the Commander on the turnpikes, Commanding the Bailey, Turner, Kilpatrick, and Cimarron turnpikes before my retirement in 2022. In January of 2023, his family began constructing their "forever" home on our farm near Calvin, Oklahoma, and moved to SE Oklahoma. Hence, the Academy job at CLEET. CLEET hired him in March of 2023 as the CLEET Academy Coordinator/Manager. "Director Stacy gave me his vision for the future of the CLEET academy, and we are in perfect alignment. We are on a mission to make the CLEET academy the Premier law enforcement training academy in the country". Trent is married to his wife of almost 28 years, Christy, who is a Dentist/Hygienist in Yukon and shares two children: Paige, a recent graduate of UCO and case manager at a large law firm in Oklahoma City, and Trevin, a freshman baseball player at Murray State College in Tishomingo. Trent has Degrees in Criminal Justice and Business and a master's degree in management. He is also an adjunct Instructor for Southern Nazarene University in Oklahoma City. He enjoys hunting, fishing, ATVs, watching college baseball, and traveling in his spare time.

Upcoming CLEET Meetings

Where? CLEET Courtroom
2401 Egypt Rd, Ada, OK 74820

When? 10:00 A.M- 12:00 PM

May 14th- Curriculum Review Board Meeting

June 6th- Private Security Advisory Council Meeting

July 10th- Advisory Council Meeting

July 24th- Council Meeting

August 13th- Curriculum Review Board Meeting

General Counsel Preston Draper

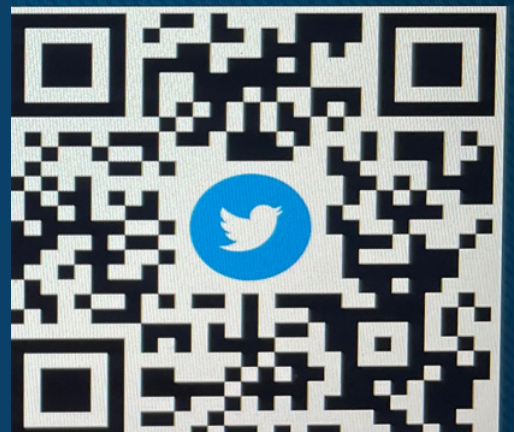

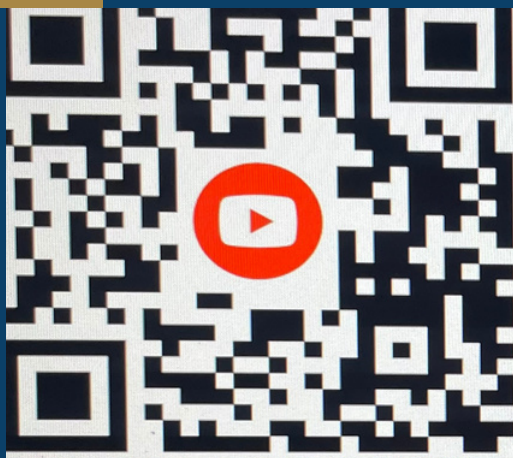

LEGAL UPDATE

The Legislature is back in session with dozens if not hundreds of bills filed that may have some effect on Oklahoma peace officers from amendments to existing criminal statutes, proposed new crimes and punishments, changes to pension plans, and so much more. CLEET's legal office will be monitoring the session and tracking bills that make it through so they can be included in the 2024 legal update this summer. Speaking of legal updates, for those of you who have not had a chance to take the 2023 legal update it is still available in a variety of ways. First, the written materials are available and open to anyone on our website. You can find them by going to the "CLEET Training" tab on the banner at the top of the home page, engaging the drop-down list and selecting "Legal Updates" at the bottom of the list. That will take you to the legal updates page and the materials for 2023 and the last several years are available on that page, just click on the desired year. Also on that page are three on-demand CE courses covering the 2023 legal update materials. You can take one, two, or all three of the courses. Each is worth one hour of CE. Just click on the link that says "2023 Legal Updates are now available" and it will take you to a separate page where you can select whichever courses you'd like to take. If online training isn't your thing, there are currently three opportunities on the calendar to attend a 3-hour legal update CE course in person. If anyone is interested in hosting a legal update this year, feel free to reach out directly to Preston Draper at preston.draper@cleet.state.ok.us. Finally the "legal block" in the fulltime basic academy is back in person rather than online this year. Instead of running all of the lectures together over 5 or so back-to-back days like we used to do, we will be breaking the legal materials up into single days spread across the length of the basic academy. We hope the new approach will be conducive to better comprehension and retention of the serious topics contained in the legal block.

Directors via SharePoint.

Officer Of The Quarter

Pete Broderick

Celebrating Officer Pete Broderick: Officer of the Quarter

We are thrilled to shine the spotlight on Officer Pete Broderick, our distinguished Officer of the Quarter! His journey in law enforcement is not just a testament to his dedication and passion but also a story of unwavering commitment to service and community. Originally hailing from Orlando, Florida, Pete Broderick's path led him to Oklahoma at the age of 7. It was here that his profound connection with law enforcement began to blossom. As a young man, he found his calling when he joined the Tulsa Police Explorers. From that moment on, he knew that his destiny was to serve and protect. Throughout his illustrious career, Officer Broderick has donned many hats, each role adding layers of experience and expertise to his repertoire. From serving as a deputy to handling K9 units, patrolling as a sergeant, and investigating crimes, Officer Broderick has left an indelible mark in every position he has held. Currently, he serves as a Special Agent with District 27 Drug and Violent Crime Task Force, where his dedication to justice shines brightly. But it's not just about the roles he's held; it's about the impact he's made along the way. Officer Broderick's commitment to continuous learning and sharing knowledge is truly commendable. His decision to enroll in the BID class was not just about adding another credential to his resume; it was about seizing the opportunity to empower others. Inspired by his instructor's words, he became an LEDT instructor and eagerly volunteered to assist with classes whenever needed. His dedication to mentoring and guiding new recruits is a testament to his belief in giving back to the law enforcement community. In every endeavor, Officer Broderick's sense of duty and camaraderie shine through. His colleagues at CLEET (Council on Law Enforcement Education and Training) have become more than just coworkers; they are family. Through his tireless efforts and unwavering commitment, Officer Pete Broderick exemplifies the very best of law enforcement. Join us in congratulating Officer Broderick on this well-deserved recognition. His dedication, leadership, and passion serve as an inspiration to us all.

Private Security Update

During the past month, We have had the opportunity to engage with Chiefs and Sheriffs at our monthly meetings. These sessions have been productive in discussing key issues and collaborating with stakeholders from the OACP Board, OSPOA, OSA Board, and the Regional OSA Committee. Attending CLEET Council meetings, PSAC meetings, Rules meetings, and other Committee meetings have presented valuable opportunities to interact with Council and Committee members. These interactions are crucial in fostering relationships and addressing concerns effectively. In recent weeks, we have attended numerous in-person meetings with Private Security Agency Owners, Private Investigator Agency Owners, and Private Security School Coordinators. These interactions have been instrumental in understanding their perspectives and enhancing collaboration within the industry. We have initiated investigations on Private Security and Private Investigator licensees during our work. These efforts are aimed at upholding industry standards and ensuring compliance with regulations. Conducting on-site inspections of Private Security and Private Investigator Agencies and Private Security Schools remains a priority. These inspections are essential for monitoring operations and enforcing regulatory requirements. Regular meetings with the Legal team to address complaints received via the Portal have been productive. We strive to ensure we are meeting the needs of all security professionals around the state.

Thentia Update

CLEET Certification/License Hard Cards are back! CLEET staff have been printing the backlog of anyone who gained certification or license during the transition into CLEET's new system, Thentia. The Full-time and Reserve peace officer certification cards are current with the success in printing from the Law Enforcement records team. The Private Security team has printed over 3,000 hard cards from the back log of new licenses, upgrades, and renewals. The Private Security team has approximately 2,000 left and printing daily. CLEET is excited to inform you that the process for duplicate hard card requests is at your fingertips through the online [Licensee Portal](#) by completing a Document Request. Once CLEET receives your request, you will be invoiced a fee for your duplicate hard card of \$10. (Please note the printable card and valid hard cards used in past are still eligible for proof of licensure or certification.)
